Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, and MySQL are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

If this document is in public or private pre-General Availability status:

This documentation is in pre-General Availability status and is intended for demonstration and preliminary use only. It may not be specific to the hardware on which you are using the software. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to this documentation and will not be responsible for any loss, costs, or damages incurred due to the use of this documentation.

If this document is in private pre-General Availability status:

The information contained in this document is for informational sharing purposes only and should be considered in your capacity as a customer advisory board member or pursuant to your pre-General Availability trial agreement only. It is not a commitment to deliver any material, code, or functionality, and should not be relied upon in making purchasing decisions. The development, release, timing, and pricing of any features or functionality described in this document may change and remains at the sole discretion of Oracle.

This document in any form, software or printed matter, contains proprietary information that is the exclusive property of Oracle. Your access to and use of this confidential material is subject to the terms and conditions of your Oracle Master Agreement, Oracle License and Services Agreement, Oracle PartnerNetwork Agreement, Oracle distribution agreement, or other license agreement which has been executed by you and Oracle and with which you agree to comply. This document and information contained herein may not be disclosed, copied, reproduced, or distributed to anyone outside Oracle without prior written consent of Oracle. Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <https://www.oracle.com/corporate/accessibility>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

Sample Code

Oracle may provide sample code in SuiteAnswers, the Help Center, User Guides, or elsewhere through help links. All such sample code is provided "as is" and "as available", for use only with an authorized NetSuite Service account, and is made available as a SuiteCloud Technology subject to the SuiteCloud Terms of Service at www.netsuite.com/tos.

Oracle may modify or remove sample code at any time without notice.

No Excessive Use of the Service

As the Service is a multi-tenant service offering on shared databases, Customer may not use the Service in excess of limits or thresholds that Oracle considers commercially reasonable for the Service. If Oracle reasonably concludes that a Customer's use is excessive and/or will cause immediate or ongoing performance issues for one or more of Oracle's other customers, Oracle may slow down or throttle Customer's excess use until such time that Customer's use stays within reasonable limits. If Customer's particular usage pattern requires a higher limit or threshold, then the Customer should procure a subscription to the Service that accommodates a higher limit and/or threshold that more effectively aligns with the Customer's actual usage pattern.

Beta Features

Affordable Care Act (ACA) Reporting

If you are an Applicable Large Employer (ALE) in the United States, you must comply with Affordable Care Act (ACA) reporting requirements. The ACA Reporting SuiteApp lets you set up and track the health coverage offered to full-time employees. Then, you can electronically file the required health care coverage forms (1094-C and 1095-C) with the IRS.

ACA reporting is required for ALEs, or employers with 50 or more full-time or full-time-equivalent employees. Employees count as full-time if they work at least 30 hours a week or 130 hours a month on average.

The SuiteApp lets you record and track employee health care information all year as employees are hired, finish probation, and get offered coverage. At year end, you review and adjust the information as needed, before printing and distributing forms to employees and filing forms electronically with the IRS.

For more information about ACA reporting requirements, go to <https://www.irs.gov/instructions/i109495c>.

The 2021 version of the ACA SuiteApp adds two more offer of coverage plans: 1T and 1U. For more information, see [Assigning an ACA Offer of Coverage Plan to an Employee](#). For more information about coverage codes, visit <https://www.irs.gov/instructions/i109495c>.

Important: Important: For the 2024 reporting year, the filing deadline is January 2, 2024.

ACA Reporting SuiteApp Features

The ACA Reporting SuiteApp enables you to do the following:

- View employees' average hours during specific measurement periods to help determine full-time equivalent status.
- Specify health coverage plans for groups of full-time employees at once, or for individuals as they become eligible.
- Review the information you'll submit to the IRS on the 1094-C and 1095-C forms. Preview each form individually and see a detailed report.
- Send the ACA information for electronic IRS filing, and print and distribute the forms to employees.

The following topics provide details about the ACA filing process:

- [Setting up the ACA Reporting SuiteApp](#)
- [ACA Pre-Filing](#)
- [ACA Filing](#)
- [Updating Employee Records for ACA](#)
- [Assigning an ACA Offer of Coverage Plan to an Employee](#)
- [Adding Covered Individuals to an Employee](#)
- [Adding Safe Harbor Codes to an Employee](#)
- [Excluding an Employee from ACA Reporting](#)
- [State-Specific ACA Reporting \(DC, NJ, CA, RI\)](#)
- [Viewing ACA Filing History](#)

Setting up the ACA Reporting SuiteApp

This section includes the requirements and procedures for installing the ACA Reporting SuiteApp.

- [Prerequisites for Installing the ACA Reporting SuiteApp](#)
- [Applicable Large Employer \(ALE\) Member Information](#)
- [Install the ACA Reporting SuiteApp](#)
- [After the ACA Reporting SuiteApp Is Installed](#)
- [Roles and Permissions](#)
- [Setting up a Default Recipient for ACA Notifications](#)
- [View the ACA Landing Page](#)

Watch the following help video for information about setting up the ACA Reporting SuiteApp.

 [Setting Up the Affordable Care Act \(ACA\) Reporting SuiteApp](#)

Prerequisites for Installing the ACA Reporting SuiteApp

Important: Important: To use the ACA Reporting SuiteApp, you need to have SuitePeople U.S. Payroll active during the filing year.

Before installing the ACA Reporting SuiteApp, go to Setup > Company > Setup Tasks > Enable Features (Administrator) and enable the following features:

Subtab	Feature
Employees	Payroll
SuiteCloud	Custom Records
	Client SuiteScript
	Server SuiteScript

Applicable Large Employer (ALE) Member Information

To use the ACA Reporting SuiteApp, you'll need to enter the legal name as it should appear on tax forms. You must also enter an employer identification number (EIN) for at least one subsidiary. For more information, see the help topic [Creating Subsidiary Records](#). If you have employees you're setting to part-time, their subsidiaries should have at least one payroll earning item type. For more information, see the help topic [Creating Payroll Items](#).

Note: If you use NetSuite OneWorld and subsidiaries share the same EIN, they use the same ALE record. Employees from those subsidiaries are included in one ACA file when filing. Subsidiaries with different EINs have different ALE records and need to file ACA information separately.

Install the ACA Reporting SuiteApp

Only users with the Administrator role can install the ACA Reporting SuiteApp. This is a managed bundle and updates automatically whenever there are changes.

After you install the SuiteApp, the Affordable Care Act (ACA) subtab appears on employee records, and you can access the ACA landing page. For more information, see [Updating Employee Records for ACA](#) and [View the ACA Landing Page](#).

You can disable the ACA Reporting SuiteApp at any time. When you do, billing stops and information for the current year is deleted. All filing data from previous years is kept for at least 7 years.

To install the ACA Reporting SuiteApp, go to Customization > SuiteBundler > Search & Install Bundles, then click **Advanced**.

Use the following information to search for the SuiteApp:

- **Bundle Name** – Affordable Care Act (ACA) Reporting
- **Bundle ID** – 147355

For more information about installing SuiteApps, see the help topic [Installing a Bundle](#).

 **Note:** If you don't see the Install button or can't find this SuiteApp, it might not be shared with your account. Contact Customer Support to get access.

After the ACA Reporting SuiteApp Is Installed

Before you use the ACA Reporting SuiteApp, you'll need to do the following:

- Choose the day of the month you'll use to determine the monthly employee count for the 1094-C form. For more information, see [Setting Up Employer Information](#).
- Set a default recipient for ACA-related email. For more information, see [Setting up a Default Recipient for ACA Notifications](#).
- Set up roles and permissions. For more information, see [Roles and Permissions](#).
- Make sure each employee covered by ACA reporting has a birth date entered on the Human Resources tab of their record. For more information, see the help topic [Entering Human Resources Information for an Employee](#).

Roles and Permissions

Each role that needs access to the ACA Reporting SuiteApp must be listed on the ACA Grant Permissions page. To assign roles, go to Setup > Customization > ACA Grant Permission (Administrator).

Roles assigned to this permission can perform the following tasks:

- [Assigning an ACA Offer of Coverage Plan to an Employee](#)
- [Adding Covered Individuals to an Employee](#)
- [Adding Safe Harbor Codes to an Employee](#)
- [Excluding an Employee from ACA Reporting](#)
- [Identifying Part-Time Employees](#)
- [Creating an ACA Offer of Coverage Plan](#)
- [Assigning an ACA Offer of Coverage Plan to Multiple Employees](#)
- [Setting Up Employer Information](#)

- [ACA Filing](#)
- [Viewing ACA Filing History](#)

Granting Additional Permissions to Custom Roles

Starting version 1.11.4, custom roles used by the SuiteApp require an additional permission.

To add the required permission to custom roles:

1. Go to Setup > Users/Roles > User Management > Manage Roles.
2. On the Manage Roles page, click **Edit** beside the name of the custom role.
3. On the Role page, click the **Permissions** subtab.
4. On the **Custom Record** subtab:
 - a. Select **ACA CRUD Get Select List**.
 - b. Set the level to **Full**.
 - c. Click **Add**.
5. Click **Save**.
6. Repeat steps 1 – 5 for all custom roles used with the ACA Reporting SuiteApp.

Important: If the Advanced Employee Permission feature is enabled in your account, only users with the Administrator, Payroll Manager, or Human Resource Generalist roles can perform tasks or access features within the ACA Reporting SuiteApp. Using custom roles with Advance Employee Permission enabled may result in limited access or permission errors when using ACA Reporting SuiteApp features.

If you use the Advanced Employee Permission feature, users with custom roles require additional permissions to update ACA-related fields in employee records. To grant access, add the ACA-related fields to the permission records assigned to your custom role.

To add the required ACA-related fields to custom roles:

1. Go to Setup > Users/Roles > Manage Permissions.
2. Click **Edit** or **Customize** next to the employee permission record assigned to your custom role.
To know which permission is assigned to your custom role, see the help topic [Setting Employee Access for Advanced Employee Permissions](#).
3. On the **Fields** subtab, click a line in the list.
4. From the **Records Type** list, select **Employee**.
5. From the **Fields** list, select each of the following ACA-related fields, clicking **Add** after each one:
 - ACA Curr Employee Info
 - Limited Non-Assessment Period End Date
 - Employee's Age as of January 1 of Filing Year
 - Override Limited Non-Assessment Date
 - Void 1095-C Form
6. Click **Save**.

Setting up a Default Recipient for ACA Notifications

You'll want to set up a default recipient for ACA notifications. The default recipient gets an email whenever changes for multiple employees in ACA reporting are finished. This includes when an ACA offer of coverage plan is assigned to multiple employees or when several employees are marked as part-time.

To set up a default recipient for ACA notifications:

1. Go to Setup > Company > Preferences > General Preferences (Administrator).
2. Click the **Custom Preferences** subtab.
3. From the **Email Notification Recipient** list, select the default recipient. The recipient must be an employee.
4. Click **Save**.

View the ACA Landing Page

To access the ACA landing page, go to Transactions > Employees > Affordable Care Act (Administrator). You can also go to Payroll and HR > Payroll > Affordable Care Act (Payroll Manager). Here, you'll find the steps you need to complete for pre-filing and filing.

 **Note:** If the ACA SuiteApp was recently updated, you might see an error message saying the ACA landing page isn't available because of a data migration failure. If this happens, you can't use the ACA SuiteApp. Please contact support.

For more details, see the following help topics:

- [ACA Pre-Filing](#)
- [ACA Filing](#)

ACA Pre-Filing

Before filing, there are several pre-filing tasks you'll need to do. Pre-filing means identifying part-time employees, setting up and assigning an offer of coverage, and entering employer ACA information. The information you enter during pre-filing is used to file the 1094-C and 1095-C forms required for ACA reporting at year-end.

The ACA landing page guides you through each required pre-filing step. To make year-end filing easier, you can track and update this information each month.

For details about the 1094-C and 1095-C forms, go to <https://www.irs.gov/instructions/i109495c>. For filing information, see [ACA Filing](#).

ACA pre-filing includes the following:

- [Setting Up Employer Information](#)
- [Identifying Part-Time Employees](#)
- [Creating an ACA Offer of Coverage Plan](#)
- [Assigning an ACA Offer of Coverage Plan to Multiple Employees](#)

Watch the following help video for information about setting up employer information and identifying part-time employees.

 [Affordable Care Act \(ACA\) Pre-Filing \(Part 1\)](#)

Watch the following help video for information about creating and assigning offers of coverage.

 [Affordable Care Act \(ACA\) Pre-Filing \(Part 2\)](#)

Setting Up Employer Information

You'll use the Employer Information page to enter details about the ALE member, which are used to file the 1094-C form at year end. ACA employer setup also means entering information for all ALE members in an aggregated group.

For example, if company A is the parent of company B and C, together they have 100 full-time employees. Each employer in an ALE aggregated group is subject to the employer shared responsibility rules and reporting requirements. Each one must file its own 1094-C form using its own Employer Identification Number (EIN).

To set up employer information:

1. Go to Payroll and HR > Payroll > Affordable Care Act (Payroll Manager).
2. If you have a NetSuite OneWorld account, select the subsidiary you need from the **View** list.
3. Click **Set Up Employer**.
4. NetSuite automatically fills in information from the company or subsidiary record. If you need to make changes, you can edit the information here.
5. Enter the name and contact number of the person responsible for answering IRS questions about the filing.
6. If there is a parent company, each employer is subject to the shared responsibility rules.
 - a. Click the **Other ALE Members** subtab.
 - b. Select the months the company was part of the same ALE group.
 - c. Enter the company names and unique EINs for each affiliated ALE member.
7. Click **Add**.
8. If your employer is eligible for transition relief, select the certifications that apply from the **Certifications of Eligibility** subtab:
 - **Qualifying Offer Method** – A qualifying offer was made to full-time employees for every month they were considered full-time during the year.
 - **98% Offer Method** – Offer of affordable health coverage that provides minimum value to at least 98% of your employees and minimum essential coverage to their dependents.
9. Click the **Preferences** subtab. From the **Employee Count Based On** list, select the day of the month you will use to determine the monthly employee count on the 1094-C form.
For example, if you select **First Day of Each Month** and an employee leaves mid-month, they are still included in the monthly count.
10. In the **Plan Start Month** list, select the month when the health plan coverage begins. This Plan Start Month is shown for the affected employees.
11. In the **Limited Non-Assessment Period Override** field, enter the number of days (0–90) to override the Limited Non-Assessment Period. This number is added to the employee's hire date or exclusion date from ACA to determine the Limited Non-Assessment Period End Date, unless you set this date manually.

If you want to apply this new override value to all existing employees, then click **OK** in the confirmation popup. To apply it only to future employees, click **Cancel**.

12. Click **Save**.

Identifying Part-Time Employees

The next step for ACA pre-filing is to identify part-time employees. These are employees who do not meet the minimum number of hours to be considered full-time for a specific period.

To identify part-time employees:

1. Go to Payroll and HR > Payroll > Affordable Care Act (Payroll Manager).
2. If applicable, select the subsidiary from the **View** list.
3. Select the payroll items considered eligible hours of service. These are used to determine an employee's full-time status under Section 4980H. ACA-eligible payroll items include:
 - Earning: Wage
 - Earning: Salary
 - Earning: Vacation
 - Earning: Sick

The payroll items are automatically selected, but you can change the list if needed.

 **Note:** If the ALE member has multiple subsidiaries, at least one must have payroll items set up. If a subsidiary does not have payroll items defined, a warning message appears showing which ones are missing payroll items. If there are multiple subsidiaries, you can choose payroll items for those that have them defined.

For more information about payroll items, see the help topic [Payroll Items Setup](#). For more information about eligible hours of service, go to <https://www.irs.gov/instructions/i109495c>.

4. Click **Done** to save the changes and return to the ACA landing page.
5. To identify employees who do not meet the minimum number of hours to be considered full-time, click **Set Part-Time**.
6. To filter the list of employees, enter a **Start Date** and **End Date** for the employees' paychecks. These two dates must be at least three months apart.
7. By default, the **Show Employees Who Worked Less Than 130 hours per month** and **30 hours per week** boxes are checked. To see employees outside of these parameters, clear the boxes.
8. By default, the **Show inactive and terminated employees in the current filing year** box is not checked. To include these employees, check this box.
9. Select one or more employees, then click **Set to Part-Time**.
10. Enter the date range when the employee will be considered part-time.
For example, if an employee averaged less than 30 hours per week from January 1 to December 31, 2021, you may set them to part-time from January 1 to December 31, 2022 for ACA purposes. For more information, see <https://www.irs.gov/instructions/i109495c>.
11. Click **OK**.
12. Check that the date range for the employees set to part-time status is correct in the 2020 Part Time Status column.
13. Click **OK**.

The contact set as the default recipient for ACA notifications gets an email after the changes are applied. For more information, see [Setting up a Default Recipient for ACA Notifications](#).

To make changes, click **Edit Hours** on the ACA landing page.

Creating an ACA Offer of Coverage Plan

An offer of coverage plan has information about health coverage for employees. You can assign them to employees from the employee record, or to multiple employees from the pre-filing section of the ACA landing page. For more details, see [Assigning an ACA Offer of Coverage Plan to an Employee](#) and [Assigning an ACA Offer of Coverage Plan to Multiple Employees](#).

To create an ACA offer of coverage plan:

1. Go to Payroll and HR > Payroll > Affordable Care Act (Payroll Manager).
2. If you have a NetSuite OneWorld account, select the subsidiary you need from the **View** list.
3. Click **Add Coverage**.
4. In the **Name** field, enter the name of the plan.
5. If a carrier provides coverage, enter its name in the **Carrier** field.
6. If the plan is self-insured, check the **Self Insured** box. If you check this box, enter the covered individuals for the plan. For instructions, see [Adding Covered Individuals to an Employee](#).

 **Note:** If this offer of coverage plan is assigned to an employee, you cannot change the self-insured status of the plan.

7. Select the offer of coverage code from the **Code** list. Codes show the type of coverage available to the employee, their spouse, and dependents. For more details about coverage codes, visit <https://www.irs.gov/instructions/i109495c>.

The list of coverage codes includes:

- 1A - Qualifying Offer – Minimum essential coverage providing minimum value. It is offered to full-time employee with employee contribution for self-only coverage equal to or less than 9.5% mainland single federal poverty line. It is at least minimum essential coverage offered to spouse and dependent(s).
- 1B – Minimum essential coverage providing minimum value offered to employee only.
- 1C – Minimum essential coverage providing minimum value offered to employee and at least minimum essential coverage offered to dependent(s) (not spouse).
- 1D – Minimum essential coverage providing minimum value offered to employee and at least minimum essential coverage offered to spouse [not dependent(s)].
- 1E – Minimum essential coverage providing minimum value offered to employee and at least minimum essential coverage offered to dependent(s) and spouse.
- 1F – Minimum essential coverage **not** providing minimum value. It is offered to the employee, employee and spouse or dependents, or employee, spouse and dependents.
- 1G – Offer of coverage to employee who was not a full-time employee for any month of the calendar year. This may include one or more months in which the individual was not an employee. It may also include an employee who enrolled in self-insured coverage for one or more months of the calendar year.
- 1H – No offer of coverage. The employee was not offered any health coverage, or the employee was offered coverage that is not minimum essential coverage. This may include one or more months in which the individual was not an employee.

- 1J – Minimum essential coverage providing minimum value offered to the employee. It provides at least minimum essential coverage conditionally offered to spouse. It does not provide minimum essential coverage to dependents.
 - 1K – Minimum essential coverage providing minimum value offered to the employee. It provides at least minimum essential coverage offered to dependents, and at least minimum essential coverage conditionally offered to the spouse.
 - 1L – Individual coverage health reimbursement arrangement (HRA) offered to you only with affordability determined by using employee's primary residence location ZIP code.
 - 1M – Individual coverage HRA offered to you and dependents (not spouse) with affordability determined by using employee's primary residence location ZIP code.
 - 1N – Individual coverage HRA offered to you, spouse and dependents with affordability determined by using employee's primary residence location ZIP code.
 - 1O – Individual coverage HRA offered to you only using the employee's primary employment site ZIP code affordability safe harbor.
 - 1P – Individual coverage HRA offered to you and dependents (not spouse) using the employee's primary employment site ZIP code affordability safe harbor.
 - 1Q – Individual coverage HRA offered to you, spouse and dependents using the employee's primary employment site ZIP code affordability safe harbor.
 - 1R – Individual coverage HRA that is NOT affordable offered to you, employee and spouse or dependents, or employee, spouse, and dependents.
 - 1S – Individual coverage HRA offered to an individual who was not a full-time employee.
 - 1T – Individual coverage HRA offered to an employee and spouse (no dependents) with affordability determined using the employee's primary residence ZIP code.
 - 1U – Individual coverage HRA offered to an employee and spouse (no dependents) using employee's primary employment site ZIP code affordability safe harbor.
8. If you select any coverage code in the 1B–1U range:
 - a. Enter the employee's lowest monthly premium for self-only minimum essential coverage in the **Lowest Cost of Employee Coverage** field.
 - b. Enter a **Start Month** and a **Start Year**.
 9. If you select coverage codes 1O, 1P, 1Q, or 1U, you can enter a **Default ZIP Code** for the employee's primary employment site.
 10. Click **Add**.
 11. If the premium changed throughout the reporting year, add more lines. The dates cannot overlap.
 12. Click **Save**.

Making an ACA Offer of Coverage Plan Inactive

Make plans inactive so they don't appear in lists. A plan stays assigned to an employee even when it's inactive.

To make an ACA offer of coverage inactive:

1. Go to Payroll and HR > Payroll > Affordable Care Act (Payroll Manager).
2. Click the **Coverages** link beside **Set Up & Assign Coverage**.
3. Click **Edit** next to the plan you want to inactivate.
4. Check the **Offer of Coverage Inactive** box.

5. Click **Save**.

Deleting an ACA Offer of Coverage Plan

Delete a plan when it's unassigned and not needed.

To delete an ACA offer of coverage plan:

1. Go to Payroll and HR > Payroll > Affordable Care Act (Payroll Manager).
2. Click the **Coverages** link beside **Set Up & Assign Coverage**.
3. Click **Edit** next to the plan you want to delete.
4. Select **Delete** from the **Actions** menu.
5. Click **OK**.

Assigning an ACA Offer of Coverage Plan to Multiple Employees

After you set up an offer of coverage plan, you can assign it to a group of employees from the ACA landing page. The information you enter on this page is used to generate the 1095-C forms for each employee. For more information, go to <https://www.irs.gov/instructions/i109495c>.

To assign an ACA offer of coverage plan to multiple employees:

1. Go to Payroll and HR > Payroll > Affordable Care Act (Payroll Manager).
2. If you have a NetSuite OneWorld account, select the subsidiary you need from the **View** list.
3. Click **Assign Coverage**.
4. By default, employees who were not full-time or not employed for the entire reporting year are excluded. Employees who were inactive or terminated in the current filing year are also excluded. You can use the filters to control which employees are shown in the list.
5. By default, the **Show inactive and terminated employees in the current filing year** box is not checked. To include these employees, check this box.
6. From the list, select the employees you want to assign this coverage to.
7. Click **Assign Coverage**.
8. Select the offer of coverage plan from the **Plan** list.
9. Enter the start date when the coverage plan is offered to the selected employees.
10. To record that coverage was offered after the employee's limited non-assessment period, check the **Override start date with employees eligibility date** box. This only applies if the eligibility date is later than the start date.
11. Check the **Auto-assign Safe Harbor Code 2C** box if every employee who was offered health coverage was enrolled in the coverage.
12. Click **Assign**.
13. Confirm the information in the Plan and Coverage columns is correct.
14. If you have multiple plans assigned to different groups of employees, repeat these steps.
15. Click **Save**.

The contact set as the default recipient for ACA notifications gets an email after the changes are applied. For more information, see [Setting up a Default Recipient for ACA Notifications](#).

ACA Filing

When the reporting year is complete, the required health coverage forms (1094-C and 1095-C) can be electronically filed to the IRS. When you file your company's ACA files, Dayforce, your payroll partner, reviews the data. If it passes validation, Dayforce then sends your files to the IRS.

Watch the following help video for information about filing for ACA.

 [Affordable Care Act \(ACA\) Filing](#)

To file for ACA:

1. Go to Payroll and HR > Payroll > Affordable Care Act (Payroll Manager).
2. Click **Generate** from the Ready to File section of the ACA landing page.
3. To preview the 1094-C and 1095-C forms, click **Preview**. Alternatively, click the **View Audit Log** link to open a file that can be viewed in Microsoft Excel.
4. Review the details and included employees in the preview or the audit log. You can also see error details in the audit log. You'll need to fix any errors before you can transmit your ACA file.

Note: Employees who are both inactive and terminated, with termination dates in this filing year and with reportable coverages assigned, will be included for reporting.

5. When you're ready to transmit, click **File**. The File section shows the filings you've sent, along with a filing number and the date and time.

To check for ACA filing errors and refile:

1. Go to Payroll and HR > Payroll > Affordable Care Act (Payroll Manager).
2. On the ACA landing page, the Ready to File section shows your filing status, filing number, and date and time of your transmission. If your filing doesn't pass Dayforce validation, an **Errors** button appears next to it. Click **Errors** to see the issues Dayforce found. A popup window appears showing the errors that occurred.
3. Correct the errors as indicated in the popup window. For assistance resolving these errors, contact NetSuite Customer Support.
4. For any employees who had errors in the filing, edit the employee record and clear the errors.
5. When you have corrected the errors, return to the ACA landing page and click **Re-Generate**.
6. Click **Preview** and **View Audit Log** to make sure your data is ready to send.
7. Click **Refile**.

Removing Ineligible Employees from ACA Reporting

After sending your ACA filing to the IRS, you can still remove employees from ACA reporting. For example, you'd remove an employee if they become ineligible or if you add them by mistake. To do this, you must void the 1095-C form on their employee record and then refile. If you haven't filed your ACA information with the IRS and need to remove an employee before filing, you can exclude them. For more information, see [Excluding an Employee from ACA Reporting](#).

To remove ineligible employees from ACA reporting:

1. Go to Payroll and HR > Lists > Employees (Payroll Manager).
2. In the Employees list, click **Edit** next to the employee you want to remove from reporting.
3. Click the **Affordable Care Act (ACA)** subtab.
4. Check the **Void 1095-C Form** box.
5. Click **Save**.
6. Refile your ACA data using the steps in **To check for ACA filing errors and refile** section.

Tracking Minimum Essential Coverage

Before you make your ACA filing, you can check if you're following ACA rules for minimum essential coverage. If you're not compliant, you may be subject to an employer shared responsibility payment. You can view the Minimum Essential Coverage Offer Indicator in two ways:

- From the ACA landing page, click **Preview**. The Preview 1094C page appears, showing the Minimum Essential Coverage Offer Indicator for the whole filing year and for each month. If you're compliant for a given period, then Yes is checked for that time.
- From the ACA landing page, click **View Audit Log**. Open the downloaded XML file in Microsoft Excel, then click the **1095-C Part III** tab. Under **Part III: ALE Member Information — Monthly**, you'll see a Minimum Essential Coverage Indicator row for the entire year and for each month, with a Yes or No in the Data column.

The ACA SuiteApp determines the minimum essential coverage offer indicator value in the following way:

- The value is Yes (you're compliant) if you have not offered coverage to five employees, and five is less than five percent of your total full-time employees. For example, if you have 120 employees and 115 have offers, you're compliant because 95 percent have coverage and five employees is less than five percent.
- The value is No (you're not compliant) if the number of employees without coverage is five or more, and five is more than five percent of your total employees. For example, if you have 50 employees and 48 have coverage, you're not compliant because five employees is 10 percent of your total.

 **Note:** If an employee has a coverage code of 1H and a safe harbor code of 2E, they're considered covered no matter what the calculation shows.

For more information, go to <https://www.irs.gov/affordable-care-act/employers/types-of-employer-payments-and-how-they-are-calculated>.

Updating Employee Records for ACA

The ACA Reporting SuiteApp displays the Affordable Care Act (ACA) subtab on the employee record. You can assign an offer of coverage plan, add covered individuals who are included in the plan, and apply a safe harbor code.

The following topics detail the ACA setup tasks you can complete on the employee record:

- [Assigning an ACA Offer of Coverage Plan to an Employee](#)
- [Adding Covered Individuals to an Employee](#)
- [Adding Safe Harbor Codes to an Employee](#)

■ Excluding an Employee from ACA Reporting

Assigning an ACA Offer of Coverage Plan to an Employee

Before an ACA offer of coverage plan can be assigned, you must create one first.

To assign a plan to several employees at the same time, go to the ACA landing page. For more information, see [Assigning an ACA Offer of Coverage Plan to Multiple Employees](#).

The **Limited Non-Assessment Period End Date** is the end of the employee's third full calendar month of full-time work. This date is based on the employee's hire date or when their ACA exclusion ends. It's used to show when the employee is considered full-time for ACA reporting. You should use the calculated end date, but you can override it if needed. For example, if your employees are eligible for benefits after 30 days, you can set this date manually to 30 days after each hire date.

To assign an ACA Offer of Coverage Plan to an employee:

1. Go to Payroll and HR > Lists > Employees (Payroll Manager).
2. In the Employees list, click **Edit** next to the employee who was offered coverage.
3. Click the **Affordable Care Act (ACA)** subtab.
4. Click the **Offer of Coverage** subtab.
5. From the **Plan** list, select the offer of coverage plan. If you don't see a plan, make sure one was created. For more information, see [Creating an ACA Offer of Coverage Plan](#).
6. Enter the **Start Month** and **Start Year** for this offer of coverage plan. Only enter an **End Month** and **End Year** if the employee left the company or switched to another offer of coverage plan.
7. If you have selected coverage codes 1L, 1M, 1N, or 1T:
 - a. Enter the employee's residential ZIP code in the **ZIP Code** field.
 - b. Enter the **Employee Required Contribution**.
8. If you have selected coverage codes 1O, 1P, 1Q, or 1U:
 - a. Enter the employee's employment ZIP code in the **ZIP Code** field.
 - b. Enter the **Employee Required Contribution**.
9. Click **Add**.
10. Add more lines if the employee was offered more than one coverage plan during the reporting year.
11. To set a different Limited Non-Assessment Period End Date, check the **Override Limited Non-Assessment Date** box and enter a new date.
12. Click **Save**.

Adding Covered Individuals to an Employee

On the **Covered Individuals** subtab, add the employee after you assign them an offer of coverage plan. The employee's name and date of birth (if included on the employee record) are sourced from the employee record automatically. You can also add the employee's spouse, dependents, or both if they're covered under the plan. You only need to add covered individuals if the offer of coverage plan is self-insured. When a coverage plan is self-insured, it indicates that the employer assumes the financial risk

of providing health care benefits to its employees. The individuals entered on the Covered Individuals subtab should meet the coverage criteria set up for the plan.

For example, the coverage plan code is 1C. Only add dependents to the list, not the employee's spouse. For more information about the types of coverage, see [Creating an ACA Offer of Coverage Plan](#).

To add covered individuals to an employee:

1. Go to Payroll and HR > Lists > Employees (Payroll Manager).
2. In the Employees list, click **Edit** next to the employee to add covered individuals to.
3. Click the **Affordable Care Act (ACA)** subtab.
4. Click the **Covered Individuals** subtab.

 **Note:** List the employee first, then add the spouse, dependents, or both as needed

5. If you have not added the employee to the covered individuals list, then click **Add Employee**.
6. The employee's name and date of birth (if included on the employee record) fill in automatically. Confirm or enter the employee's **Date of Birth** and the **Start Month** and **Start Year** for the coverage.
7. (Optional) Enter the **End Month** and **End Year**.
8. Click **Add**.
9. For each of the employee's spouse, dependents, or both, do the following actions:
 - a. Complete the following fields:
 - First Name
 - Last Name
 - Date of Birth
 - Start Month
 - Start Year
 - b. (Optional) Enter the **End Month** and **End Year**.
 - c. Click **Add**.
10. Add a line for each person covered under the plan.
11. Click **Save**.

Adding Safe Harbor Codes to an Employee

Safe harbor codes apply when an employee qualifies for an exemption from the assessable payment. You don't need to enter anything manually for employees who are not full-time, terminated, excluded from ACA, or in a limited non-assessment period. The system automatically adds the right safe harbor code when you generate the ACA filing. You need to enter a code manually if safe harbor codes 2E, 2F, 2G, or 2H apply, or if you need to override an existing code.

For more information about safe harbor codes, see <https://www.irs.gov/instructions/i109495c> and [Automatically Applied Safe Harbor Codes](#).

Automatically Applied Safe Harbor Codes

The following are automatically applied safe harbor codes:

- 2A – The system automatically adds this code for any month when an employee is not employed. This includes employees who are not hired yet, are excluded from ACA, or are terminated before the first day of the reporting month.
- 2B – The system automatically adds this code for any month when an employee is not considered full-time. This includes employees who are excluded from ACA or terminated during the reporting month.
- 2C – The system can automatically apply this code when you assign an ACA offer of coverage plan to multiple employees. For more information, see [Assigning an ACA Offer of Coverage Plan to Multiple Employees](#).
- 2D – The system automatically adds this code for any month when an employee is in a limited non-assessment period.

To add safe harbor codes to an employee:

1. Go to Payroll and HR > Lists > Employees (Payroll Manager).
2. On the Employees list, click **Edit** next to the employee you want to add a safe harbor code to.
3. Click the **Affordable Care Act (ACA)** subtab.
4. Click the **Safe Harbor Codes** subtab.
5. From the **Code** list, select the safe harbor code.

The safe harbor codes include:

- 2A. Employee not employed during the month. This safe harbor code is automatically applied during filing.
- 2B. Employee not full-time. This safe harbor code is automatically applied during filing.
- 2C. Employee enrolled in coverage offered. Use this code for any month the employee enrolled for each day of the month in health coverage offered by the ALE member. This is true regardless of whether any other code in Code Series 2 might also apply.

Do not use this code:

- For any month in which the multi-employer interim rule relief applies. Instead, enter code 2E.
- If code 1G is entered in the **Code** list on the ACA offer of coverage plan. For more information, see [Creating an ACA Offer of Coverage Plan](#).
- For any month that an employee is enrolled in COBRA continuation coverage or other post-employment coverage. Instead, enter code 2A.
- For any month that the employee enrolled in coverage that was not minimum essential coverage.
- 2D. Employee in a Section 4980H (b) limited non-assessment period. This safe harbor code is automatically applied during filing.
- 2E. Multi-employer interim rule relief. Use this code for any month for which the multi-employer arrangement interim guidance applies for that employee. This is true regardless of whether any other code in Code Series 2 (including code 2C) might also apply.
- 2F. Section 4980H affordability from W-2 safe harbor. Use this code if the ALE member used Section 4980H Form W-2 safe harbor to determine affordability. This is for purposes of Section 4980H(b) for this employee for the year. If the member uses this safe harbor, it must be used for each month of the calendar year the employee is offered health coverage.
- 2G. Section 4980H affordability federal poverty line safe harbor. Use this code if the ALE member used Section 4980H federal poverty line safe harbor to determine affordability. This is for purposes of section 4980H(b) for this employee for any months.
- 2H. Section 4980H affordability rate of pay safe harbor. Use this code if the ALE member used Section 4980H rate of pay safe harbor to determine affordability. This is for purposes of Section 4980H(b) for this employee for any months.

6. Enter the **Start Month** and **Start Year** of the period when the exemption applied for the employee.
7. Enter the **End Month** and **End Year** if this code applied for a short period of time. The date cannot be before the employee's hire date.
8. Click **Add**.
9. Click **Save**.

Excluding an Employee from ACA Reporting

Unless otherwise specified, all employees are included in ACA reporting. You can exclude them for all or part of the reporting year if they're not considered full-time under Section 4980H. Alternatively, they're not considered an employee for ACA reporting purposes. For example, a contractor, a sole proprietor, or a partner is not considered an employee for ACA reporting.

To exclude an employee from ACA reporting:

1. Go to Payroll and HR > Lists > Employees (Payroll Manager).
2. On the Employees list, click **Edit** next to the employee you want to exclude from ACA reporting.
3. Click the **Affordable Care Act (ACA)** subtab.
4. Click the **Exclude from ACA** subtab.
5. From the **Reason** list, select why you're excluding the employee from ACA reporting.
6. Enter the **Start Month** and **Start Year** when the exclusion starts.
7. (Optional) Enter the **End Month** and **End Year** for the exclusion.
8. Click **Add**.
9. Click **Save**.

State-Specific ACA Reporting (DC, NJ, CA, RI)

If you have employees who live in District of Columbia (DC), New Jersey (NJ), California (CA), or Rhode Island (RI), there are additional state-specific reporting requirements under the Affordable Care Act (ACA). You must report any employees who live in these states during the reporting year. You must also report the exact months those employees lived in these states.

Before you file your ACA report with state-specific information, make sure you've done the following:

- Set up your workplaces for every state or jurisdiction where you have a tax ID and paid employees. For more information, see the help topic [Entering Workplace Records for Payroll](#).
- Check your tax information for each state or jurisdiction, specifically the State ID for each of the four mandated states. For more information, see the help topic [Setting Preferences for Jurisdictions](#).
- Confirm your state IDs. If you try to generate the ACA file without valid state IDs, a warning message appears. To avoid this message, follow the procedure in [Confirming Your State IDs](#).

Confirming Your State IDs

When you file state-specific reports, the relevant state IDs are required. By default, the state IDs are defined in the jurisdiction settings.

To confirm your State IDs:

1. Go to Setup > Payroll > Setup Tasks > Set Up Payroll.
2. If you use a NetSuite OneWorld account, select the subsidiary from the **Subsidiary** list.
3. Click the **Jurisdictions** subtab.
4. Click the subtab for the four mandated states:
 - a. For the District of Columbia, the State ID is sourced from the OTR Account Number.
 - b. For New Jersey, the State ID is sourced from the Taxpayer Identification Number.
 - c. For California, the State ID is sourced from the ALE Member's FEIN.
 - d. For Rhode Island, the State ID is sourced from the ALE Member's FEIN.

Note: If an employee earns income in DC in any month, they're considered a DC resident for that month for ACA reporting, even if they live in another state.

If you do not configure the states in the jurisdiction settings, NetSuite uses the Employer Identification Number (EIN) from the Company and Subsidiary settings.

Viewing and Editing an Employee's State History

The state history shows where an employee lived in the four mandated states (DC, NJ, CA, and RI). If an employee moves into or out of a mandated state during a month, they're considered a resident of that state for that month.

When you install or update the ACA SuiteApp, the system creates employees' state histories from the system notes on their records. If you edit an employee's address, their state history updates automatically.

To view or edit an employee's state history:

1. Go to Payroll and HR > Lists > Employees (Payroll Manager).
2. On the Employees list, click **Edit** next to the employee whose state history you want to view.
3. Click the **Affordable Care Act (ACA)** subtab.
4. Click the **State History** subtab.
5. If you need to correct information in the state history, click the row you want to edit.
6. For each period when the employee lived in a mandated state, enter the **State**, **Start Month**, **Start Year**, **End Month**, and **End Year**. If you edit the state history manually, check the **Is Manually Added** box.
7. Click **Save**.

Verifying Employee State History Information

When you're ready to file your ACA compliance, you can view the state history information in the audit log to confirm accuracy.

To verify employee state history:

1. Go to Payroll and HR > Payroll > Affordable Care Act (Payroll Manager).
2. Click **Generate** in the Ready to File section of the ACA landing page.

3. Click the **View Audit Log** link to open a file you can view in Microsoft Excel.
4. Click the state-specific tabs to see the months of the year, full-time employee count, overall employee count, and the State ID for employees in those states.

Viewing ACA Filing History

If you used the ACA Reporting SuiteApp to report compliance for the previous year, you can view your filing history on the ACA landing page.

To view ACA filing history:

1. Go to Payroll and HR > Payroll > Affordable Care Act (Payroll Manager).
2. On the ACA landing page, go to the Filing History section and click **View** to view the previous year's filing.
