Contra Account Sheets

2025.2

December 17, 2025

Copyright © 2005, 2025, Oracle and/or its affiliates.

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, and MySQL are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

If this document is in public or private pre-General Availability status:

This documentation is in pre-General Availability status and is intended for demonstration and preliminary use only. It may not be specific to the hardware on which you are using the software. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to this documentation and will not be responsible for any loss, costs, or damages incurred due to the use of this documentation.

If this document is in private pre-General Availability status:

The information contained in this document is for informational sharing purposes only and should be considered in your capacity as a customer advisory board member or pursuant to your pre-General Availability trial agreement only. It is not a commitment to deliver any material, code, or functionality, and should not be relied upon in making purchasing decisions. The development, release, timing, and pricing of any features or functionality described in this document may change and remains at the sole discretion of Oracle.

This document in any form, software or printed matter, contains proprietary information that is the exclusive property of Oracle. Your access to and use of this confidential material is subject to the terms and conditions of your Oracle Master Agreement, Oracle License and Services Agreement, Oracle PartnerNetwork Agreement, Oracle distribution agreement, or other license agreement which has been executed by you and Oracle and with which you agree to comply. This document and information contained herein may not be disclosed, copied, reproduced, or distributed to anyone outside Oracle without prior written consent of Oracle. This document is not part of your license agreement nor can it be incorporated into any contractual agreement with Oracle or its subsidiaries or affiliates.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <https://www.oracle.com/corporate/accessibility>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

Sample Code

Oracle may provide sample code in SuiteAnswers, the Help Center, User Guides, or elsewhere through help links. All such sample code is provided "as is" and "as available", for use only with an authorized NetSuite Service account, and is made available as a SuiteCloud Technology subject to the SuiteCloud Terms of Service at www.netsuite.com/tos.

Oracle may modify or remove sample code at any time without notice.

No Excessive Use of the Service

As the Service is a multi-tenant service offering on shared databases, Customer may not use the Service in excess of limits or thresholds that Oracle considers commercially reasonable for the Service. If Oracle reasonably concludes that a Customer's use is excessive and/or will cause immediate or ongoing performance issues for one or more of Oracle's other customers, Oracle may slow down or throttle Customer's excess use until such time that Customer's use stays within reasonable limits. If Customer's particular usage pattern requires a higher limit or threshold, then the Customer should procure a subscription to the Service that accommodates a higher limit and/or threshold that more effectively aligns with the Customer's actual usage pattern.

Beta Features

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Contra Account Sheet

The following topics describe the features included in the Contra Account Sheet SuiteApp:

- [Contra Account Sheet Overview](#)
- [Enabling Required Features for Contra Account Sheet](#)
- [Installing Contra Account Sheet](#)
- [Access to Contra Account Sheet](#)
- [Contra Account Sheet Dashboard Management](#)

Contra Account Sheet Overview

The Contra Account Sheet SuiteApp enables companies to generate comprehensive transaction reports containing contra account information. Accountants, finance managers, or auditors can use these records to view the account balances or transactions and check they're accurate and complete. You can then export these reports in PDF or CSV format. This account practice, also known as Kontenblatt, is commonly used in Germany.

 **Note:** Starting with version 1.2.1, you can install the Contra Account Sheet SuiteApp only from the Marketplace.

Contra Account Sheet SuiteApp supports the Multi-Book Accounting feature. For more information, see the help topic [Multi-Book Accounting](#).

For more information ABOUT Germany-specific features, see the help topic [Germany Help Topics](#).

Enabling Required Features for Contra Account Sheet

To use the Contra Account Sheet SuiteApp, make sure you've enabled all required features.

To enable required features:

1. Go to Setup > Company > Setup Tasks > Enable Features.
2. On the **Company** subtab, on the **Classifications** subtab enable the **Departments**, **Locations**, and **Classes** boxes.
3. On the **Company** subtab, on the **Data Management** subtab enable the **File Cabinet** feature.
4. On the **Accounting** subtab, enable these features:
 - Accounting
 - A/R
 - A/P
 - Accounting Periods
5. On the **SuiteCloud** subtab, enable these features:
 - Custom Records
 - Advanced PDF/HTML Templates

- Client SuiteScript
- Server SuiteScript

6. Click **Save**.

For more information, see the help topics [Germany Account Setup](#) and [Enabling Features](#).

Installing Contra Account Sheet

Contra Account Sheet SuiteApp enables companies to generate transactions with contra account information.

To install the Contra Account Sheet SuiteApp:

1. Go to Customization > SuiteCloud Development > SuiteApp Marketplace.
2. In the **Search SuiteApps** field, enter **Contra Account Sheet**.
3. Click the **Contra Account Sheet** icon.
4. In the top right of the SuiteApp details page, click **Install**.
5. Wait for the installation to complete.

For more information, see the help topic [Installing from the SuiteApp Marketplace](#).

The Contra Account Sheet SuiteApp is a public and managed SuiteApp. NetSuite automatically updates your account whenever there are enhancements or new features. To install this SuiteApp, you must have permission and access to the SuiteApp Marketplace. For more information, see the help topic [Viewing SuiteApps in the SuiteApp Marketplace](#).

Access to Contra Account Sheet

Only the following standard NetSuite roles can access the Contra Account Sheet SuiteApp:

- Accountant
- Accountant (Reviewer)
- Administrator
- CEO
- CEO (Hands Off)
- CFO

The access level for all these roles is set to **Full**.

Additionally, you can create a custom role with access to Contra Account Sheet. For more information, see the help topic [NetSuite Roles Overview](#).

For more information about NetSuite user roles and access levels, see the help topics [NetSuite Roles Overview](#) and [Access Levels for Permissions](#).

Contra Account Sheet Dashboard Management

To generate the Contra Account Sheet report:

1. Go to Reports > Financial > Contra Account Sheet.
2. In the **Subsidiary** field, select the subsidiary.
3. In the **Accounts** field, select the accounts from the list.

 **Note:** **Subsidiary** and **Accounts** lists contain both active and inactive entries.

4. If you are using the Multi-Book Accounting feature, in the **Accounting Book** field, select the accounting book.

 **Note:** The **Accounting Book** list contains active, inactive, and pending entries. Primary accounting book is selected by default.

5. In the **Date from** and **Date to** fields, select the accounting period. To select a date range instead, click **Select range by date**.
6. The report is dynamically generated upon every change. You can click the report lines to inspect the contents.
7. Click **Export to ...** to export your report as a PDF or CSV file. (The PDF file is useful if you need to show it to tax authorities.) When the report's generated, you can download it. NetSuite also saves the exported report in the File Cabinet. To find it, go to Documents > Files > File Cabinet.

 **Important:** You can instantly export up to 8 accounts, or up to 100 accounts if you schedule the export. If your report has more than 30000 lines, it might not generate successfully.
